MURANO BUSINESS SUITE · USER MANUAL

Murano,

What you see in Murano depends on two things: the company you belong to and the role your administrator gave you. Find your role below, read what it can do, then follow the guides linked from it.

Address: `https://murano.kcoltech.com` Languages: English · Spanish Updated: October 7, 2026

My company: KcolTech

My role: Admin-ALL

Show my role

FOR EVERYONE

How Murano works for every user

One login, one company

Your login belongs to one company. You only ever see that company's customers, sales, employees and files. Only the system owner (SuperAdmin) can switch between companies.

Your role decides the menu

Menus, buttons and even single tabs appear only if your role allows them. If you need something you can't see, ask your company administrator to add it to your role. Nothing is given by job title alone.

Your home page

Some roles open straight on their work screen instead of the dashboard: field crews on **Daily Tasks**, salon staff on the **Bookings calendar**.

The top bar

- **Clock**: clock in and out (if your role has it).
- **Language**: English or Spanish.
- **Your name**: Profile, password, sign out.

Your company can hide icons; you can also show or hide them in your Profile.

Phones and tablets

Murano runs in the browser. The menu folds into the ☰ button, lists show the important columns first, and date filters turn into a dropdown.

When someone leaves

When an employee is removed, their login is disabled and they are signed out on every device at once. Their history (sales, jobs, attendance) is kept.

SYSTEM OWNER

SuperAdmin

The owner of the whole installation. Not tied to one company: works on any of them through the company selector.

Owner (SuperAdmin)

1 user

Home page: **Dashboard**

- Every module and every permission, including the ones added later (new modules reach this role automatically).
- A **company selector** on company forms and lists: choose the company first, then view or edit its records.
- Only role that can create another SuperAdmin, change install-wide settings (server address, modules, backups, login devices) and add scripts to website pages.
- Does not clock in and is not on payroll.

Users & roles Weekly payroll Website

COMPANY 1

KcolTech

IT services company. Every Murano module is turned on here.

Invoice numbers **INV…** Payroll **hourly, $35/h** Help desk **on** Email Office **on**

Admin-ALL

Company administrator

Home page: **Dashboard**

- Everything in KcolTech: sales, invoices, contracts, customers, products, purchases, service jobs, help desk, HR and payroll, accounting, Email Office, website and store.
- Creates admin logins, edits any user's role, password and PIN, and builds roles.
- Locked to KcolTech: never sees the company selector.

Sales Contracts Service jobs Employees Payroll Email Office Website Users & roles Help desk

Employee

Staff

Home page: **Dashboard** (shows only what the role allows)

- Their own employee record: every tab in read-only mode, including assets assigned to them.
- Attendance and the company Intranet (news, calendar, files).
- Their own help desk tickets (**Help desk › My tickets**).

Can't see sales, customers or other employees.

Profile Clock in My tickets

Sales Agent

Available, no users yet

Home page: **Dashboard**

- Creates, edits and imports sales.
- Sees their commissions (programs, rules, receipts, report).
- The login is created from **Commissions › Sales Agents**, not from Users.

Sales

Helpdesk

Available, no users yet

Home page: **Dashboard** (then **Help desk** in the menu)

- Reads and answers the help desk tickets and uses the Intranet.

Help desk

COMPANY 2

Ruba Garden Landscape

Landscaping and field services: crews, recurring contracts and service jobs that become invoices.

Invoice numbers **INV-** Payroll **hourly: manager $25, operators $20** Bookings **off** Service jobs **on**

Invoice numbers **INV_...** | Payroll **hourly: manager $25, operators $20** | Bookings **on** | Service jobs **on**

Manager RG

Company administrator

Home page: **Dashboard**

- Sales, quotations, payments and **sales contracts** (weekly / monthly billing and scheduled visits).
- Customers, products, stock, purchases and suppliers.
- Service jobs: create, assign crews, see everyone's Daily Tasks, job reports.
- Employees: add, edit, remove, every tab. Assets and equipment.
- Accounting, expenses, deposits, money transfers and the financial reports.
- Website (Portfolio, settings), store, marketing campaigns, projects.
- Email Office: reads the mailbox.
- Edits users and roles.

Not in this role today: running **Payroll**, changing Email Office settings, System Settings and Modules. Ask the system owner when needed.

Sales Contracts Service jobs Daily Tasks Employees Website Users & roles

SupervisorRG

Field manager

Home page: **Daily Tasks**

- Sees **every crew's** jobs for the day and the week.
- Assigns each job to a technician.
- Starts and completes their own jobs, with a note and the hours worked.
- Opens service jobs and their own employee record (read-only).

Daily Tasks Service jobs Profile

OperatorRG

Field crew

Home page: **Daily Tasks**

- Sees only **their own** jobs.
- Taps **Start** on arrival and **Complete** when done, with a note and the hours worked. Those hours are what weekly payroll pays.

Daily Tasks is the only screen of this role.

Daily Tasks

COMPANY 3

New Era Unisex Salon

Hair and beauty salon: online bookings from the salon's website, a shared register where each stylist sells with a PIN, and commission payroll.

Sale numbers **SL…** | Payroll **40% commission** | Bookings **on** | Service jobs **off**

AdminNE

Company administrator

Home page: **Dashboard**

- Everything in New Era: bookings and online booking setup, POS, sales, customers, products, HR and commission payroll, accounting, Email Office, website and store.
- Receives the "new online booking" emails.
- Creates admin logins, sets each stylist's PIN, builds roles.

Bookings Online booking POS Payroll Employees Website Users & roles

ManagerNE

Front desk / salon manager

Home page: **Bookings calendar**

- Bookings for **every stylist**, and trays.
- POS: sells, takes payments, **opens and closes the cash register**, sees the register report.
- Sales list and new sales; customers (add, edit); products, categories, brands, barcodes.
- Email Office, including its settings.
- Attendance, attendance summary, leave requests; sees every employee's record.
- Clocks in and out.

Doesn't see commission programs, agents or rules, accounting or payroll.

Bookings POS Customers Email Office Clock in

StaffNE

Stylists

Home page: **Bookings calendar**

- Their **own** bookings on the calendar.
- POS: sells with their PIN and takes the payment.
- Their own employee record: basic data, production, payments and assets.
- Clocks in and out.

Doesn't see other stylists' bookings, the sales list or customers' details.

Bookings POS Clock in

Profile & PIN

ALL COMPANIES

Customers and suppliers

Customers and suppliers get their own login from their record (People › Customers / Suppliers). They don't use the admin screens; they use the portal.

Customer

KcolTech, Ruba, New Era

Home page: **Customer portal** `/portal`

- Their own invoices, payments, balance and bookings. Nothing of other customers.
- A customer is the same person only with the same email in the same company.

Portal

Supplier

KcolTech, Ruba

Home page: **Supplier portal**

- Their own purchase orders and the payments made to them.

Portal

Taken from each role's permissions on October 7, 2026. An administrator can change a role at any time in

User Management › Roles

; the menu follows the role.

STEP BY STEP

Guides

Each guide says which roles use it. If a menu item in a guide is missing for you, your role doesn't include it.

Sign in and your home page

For: everyone

1. Open `https://murano.kcoltech.com` and sign in with your email and password.
2. Murano opens your role's home page: the Dashboard, Daily Tasks (Ruba crews) or the Bookings calendar (New Era).
3. Use the left menu (☰ on a phone) to move around. The logo takes you back to your home page.
4. Sign out from your name in the top bar. On a shared computer, always sign out.

> Forgot your password, or your login says it is disabled? Ask your company administrator. Employee logins are active only after the company sets a password for them.

Back to top

Profile, password, language and PIN

For: everyone

1. Click your name in the top bar › **Profile**.
2. Change your password, photo and contact details, then **Save**.
3. Under **Header icons**, choose for each icon: Company default, Show or Hide.
4. Switch the language (English / Spanish) with the language icon in the top bar.

> Your **PIN** (4 to 8 digits, unique in your company) is set by your administrator in **Users**. It identifies you at the shared register. Never share it.

Back to top

Clock in and clock out

For: ManagerNE, StaffNE, and any role with "clock in"

1. When your shift starts, click the **clock** icon in the top bar. It turns green and shows the time you clocked in.
2. When you leave, click it again. Murano shows the time and the hours worked today.
3. Forgot to clock? Tell your manager; they can correct it in **HRM › Attendance**.

Back to top

Daily Tasks (field crews)

For: OperatorRG, SupervisorRG, Manager RG

1. After sign-in, Daily Tasks opens by itself. It lists the jobs for today; switch to the week to plan ahead.
2. When you arrive at the customer, tap **Start** on that job.
3. When you finish, tap **Complete**, write a short note of what was done and enter the **hours worked**.
4. Supervisors see every crew's jobs and can **assign** a job to a technician from the same screen.

> Your weekly pay is calculated from the hours you enter on **completed** jobs, so complete every job the same day.

Back to top

Service jobs

For: Manager RG, SupervisorRG, KcolTech Admin-ALL

1. Go to **Service & Maintenance › All Jobs** (or **Today's Jobs**).
2. Create a job: customer, date, the work to do, and the technician or crew.
3. From a sale: in **Sales › Add Sale**, press **Add Service Job** to create the job linked to that invoice. Pending and completed jobs show different icons.
4. Record the equipment used on the job; the job cost adds labor hours and equipment.
5. Follow up unpaid work in **Awaiting Payment**.

Back to top

Sales and invoices

For: administrators, Manager RG, ManagerNE (view, add), Sales Agents

1. **Sales › Add Sale**: choose date, customer and location, add products or services, then save. The number comes automatically from your company's series (KcolTech and Ruba `INV_…` , New Era `SL…`).
2. **Sales › List**: filter by date, customer or status. On a phone the list shows the sale information first.
3. Open a sale to add a payment, print it or email it to the customer.
4. The **Other due** column shows the customer's other unpaid invoices. Open it to see each invoice's date and how many reminder emails were sent and when.

Back to top

Sales contracts (recurring billing)

For: KcolTech and Ruba administrators, Manager RG

1. **Sales › Sales Contracts** › Add.
2. Pick the customer, the services, the frequency (weekly or monthly) and the start date.
3. Send the contract for signature.
4. Murano creates the invoices and the scheduled service visits on each date; check them in the Sales list and in Daily Tasks.

Back to top

POS and the cash register

For: StaffNE, ManagerNE, administrators

1. At the start of the day the manager opens the register (**POS** › open register) with their PIN and the opening cash.
2. To sell: open **POS**, enter your **PIN** so the sale is recorded for you, add the services and products, and choose the customer (or Walk-in).
3. Take the payment. A sale can be split between cash and card.

4. Print or email the receipt.
5. At closing the manager closes the register with their PIN and checks the count against the **Cash Register Report**.

> Commission payroll counts the sales recorded under your PIN, or the bookings where you are the stylist.

Back to top

Bookings calendar

For: StaffNE (own), ManagerNE and AdminNE (everyone)

1. The calendar opens after sign-in. Switch between day, week and month.
2. Click an empty slot to add a booking: customer, service, stylist and time.
3. Online bookings arrive as **Pending**. Open one and **Confirm** it; the customer receives the confirmation email (if they gave an email).
4. When the customer is served, charge the booking at the POS.

Back to top

Online booking on your website

For: AdminNE, administrators

1. **Booking Management › Online Booking**.
2. Adjust the look: show or hide the logo, background color.
3. Under **Websites & codes**, add each website that shows the form. Murano gives you the code to paste: an embedded form, a link or a button.
4. Customers book in 3 steps; only the name is required. Admins receive the "new online booking" email; the customer is emailed only when you confirm.
5. "Exit" and "Close" take the customer back to the website the code belongs to.

> Spam protection: at most 5 bookings every 10 minutes from the same connection. From the 4th booking in 24 hours the customer must give an email and click the "I agree" link we send.

Back to top

Customers

For: administrators, Manager RG, ManagerNE

1. **People › Customers** › Add. Enter name, email and phone.
2. One email = one customer in your company. Before adding, search by email to avoid duplicates.
3. A customer with an email gets a login to the customer portal.
4. Open a customer to see their sales, payments, bookings and balance.

Back to top

Employees

For: administrators, Manager RG (others see their own record)

1. **HRM › Employees** › Add. Every employee gets a login automatically; it is active when the company has a default employee password (System Settings › Defaults › Users).
2. On the employee page, use the tabs: basic data, company, accounts, user, production, payments and **Assets assigned**.
3. Set the pay type: hourly (with the rate) or commission (with the %), and the date it starts.
4. **Print profile** prints the whole record with the photo.
5. **Remove** an employee: Murano disables the login, signs them out everywhere, unassigns their open jobs, upcoming bookings and tickets, and lists the assets to collect. Their history stays.

Back to top

Weekly payroll

For: administrators with the Payroll permission

1. **HRM › Payroll › Generate weekly payroll**, and choose the week.
2. Hourly employees: hours on the jobs they completed that week × their rate. Commission employees: their sales that week × their %.

3. Review each line, then mark it paid. Paid payrolls go to accounting automatically (salaries, or commissions).

Back to top

Email Office

For: roles with Email Office (Manager RG reads; ManagerNE and administrators also manage it)

1. **Email Office › Received** or **Sent**.
2. Open a message to read it and see its attachments; a message is linked to its customer or supplier when the address matches.
3. Payment emails (for example Zelle) are detected and can be matched to a customer.
4. Managers set the mailbox, folders and rules in **Email Office › Settings**.

Back to top

Website

For: administrators, Manager RG

1. **Website Management › Website Settings**: website address, name, logo, front page and menus.
2. An imported website is edited in **Website › Pages**: texts, pictures, links and **Sections**.
3. In a section, **Use our booking calendar** puts Murano's booking form in place of an old one.
4. Before an import replaces your site, Murano keeps a copy in **Saved websites** (Preview, Use this, Delete).
5. Gallery and Portfolio have their own menus for photos and projects.

Back to top

Users and roles

For: administrators (Manager RG can edit, not add)

1. **User Management › Users** › Add creates **admin** logins only. Employees, customers, suppliers and sales agents get their login from their own module.

2. Edit any login here: role, locations, password, PIN, and the **Active / Disabled** switch. Disabling signs the person out everywhere. You can't disable yourself.
3. **Roles**: tick what the role can do, module by module and tab by tab, and choose its **Home page**.
